October 2000

OHIO FARM INCOME

Cash receipts from Ohio's livestock, livestock products, and crops totaled \$4.43 billion in 1999, 9.9 percent below last year's \$4.92 billion. Cash receipts from all crops in 1999 were down 13.7 percent from 1998. Cash receipts from livestock in 1999 were 3.6 percent below the 1998 cash receipts from livestock.

The 1999 value of cash receipts for crops, at \$2.64 billion, was the lowest since the 1992 value of \$2.56 billion. This value was down 13.7 percent from 1998, and 21.7 percent below the record high \$3.37 billion in 1997. The percentage of total farm marketings attributable to crops in 1999 was 59.7 percent, 2.6 points below 1998.

The 1999 cash receipts for livestock and livestock products totaled \$1.79 billion, down 3.6 percent from last year and 8.9 percent below the record set in 1996. The percentage of total farm marketings earned by livestock and livestock products was 40.3 percent, 2.6 points above 1998.

Government payments totaled \$627.7 million, slightly more than two times the 1998 government payments, and 45.3 percent above the record high \$431.9 million paid out in 1987. This represents 12.4 percent of total cash receipts including government payments and 78.2 percent of net farm income after inventory adjustments.

Agriculture in Ohio made a net value added contribution of \$1.99 billion to the National economy in 1999, down 18.5 percent from 1998. The final agricultural sector output, at \$5.13 billion, was down 11.5 percent from 1998. Intermediate consumption outlays totaled \$2.80 billion, up 3.5 percent from last year. Capital consumption at \$774.4 million was up 1 percent from 1998, while factor payments at \$1.19 billion were up 2 percent.

The top five commodities in terms of cash receipts earned were **soybeans** with \$824.0 million and 18.6 percent of total receipts; **corn** with \$767.5 million and 17.3 percent of total receipts; **wholesale milk** with \$648.4 million and 14.6 percent of total receipts; **greenhouse and nursery** with \$544.3 million and 12.3 percent of total receipts; and **poultry and eggs** with \$511.0 million and 11.5 percent of total cash receipts. The commodities ranked sixth through tenth were hogs, cattle and calves, wheat, vegetables, and hay, respectively. The top ten commodities accounted for 94.8 percent of all Ohio cash receipts.

The following ten counties ranked first through tenth, respectively, based on total cash receipts: Mercer, Darke, Wayne, Licking, Lake, Holmes, Hardin, Putnam, Logan and Wood. Wayne county ranked first in milk, cattle and calves. Mercer county ranked first in cash receipts for hogs, poultry, and other livestock. Darke county was in first place for corn and soybeans. Wood county was first for wheat, Ashland ranked first for oats and hay, and Lake county ranked number one for other crops.

Changes to this year's report include publication of revised data by county for 1998 in addition to the 1999 preliminary data. For the first time in this series Tables VII and VIII are published for two years. The publication of the revised 1998 data by county permits a better comparison of the two years after the revisions have been made to reflect more complete data.

The publication is available online at <http://www.nass.usda.gov/oh/>.

After you get our home page - click on **Ohio Agricultural Statistics Publications**

Then click on **Current Releases of the Ohio Agricultural Statistics Service**

And finally click on **Farm Income**

FARM INCOME STATEMENT OF OHIO, 1997-99 AND U.S. 1998, 1999

		Ohio			United States	
		1997	1998	1999	1998	1999
Million Dollars						
Plus:	Net government transactions	2.1	116.8	432.8	4,805.8	13,098.9
+	Direct Government payments	186.4	312.9	627.7	12,208.9	20,594.0
-	Motor vehicle registration and licensing fees	14.5	15.9	13.6	481.2	441.4
-	Property taxes	169.8	180.2	181.3	6,921.9	7,053.6
	Gross value added	3,639.3	3,212.9	2,766.2	107,284.5	107,202.7
Less :	Capital consumption	749.5	767.8	774.4	19,736.0	19,861.8
	Net value added	2,889.9	2,445.1	1,991.8	87,548.6	87,340.9
Less :	Factor payments	1,067.1	1,165.0	1,188.8	42,925.5	43,943.3
	Employee compensation (total hired labor)	271.4	317.9	302.7	16,903.8	17,491.2
	Net rent received by nonoperator landlords	470.6	512.8	544.9	12,656.6	12,863.0
	Real estate and nonreal estate interest	325.1	334.3	341.2	13,365.0	13,589.1
	Net farm income	1,822.7	1,280.1	803.0	44,623.1	43,397.6

1/ Final sector output is the gross value of the commodities and services produced within a year. Net value-added is the sector's contribution to the National economy and is the sum of the income from production earned by all factors-of- production. Net farm income is the farm operators' share of income from the sector's production activities. The concept presented is consistent with that employed by the Organization for Economic Cooperation and Development. 2/ A positive value of inventory change represents current-year production not sold by December 31. A negative value is an offset to production from prior years included in current-year sales.

1/ Includes broilers, farm chickens, chicken eggs, turkeys, sheep, wool, turkeys eggs, beeswax, honey, other poultry and other livestock. 2/ Includes greenhouse and nursery and ornamentals, fresh market, processing and greenhouse vegetables, potatoes, fruits and nuts, berries, rye, tobacco, seed crops, mushrooms, popcorn, and miscellaneous crops.

PROCEDURE

Estimates of cash receipts from Ohio farm marketings were published initially in 1927 and annually since 1929. These county estimates of cash receipts are published by the Department of Agricultural, Environmental and Development Economics of the Ohio State University's College of Food, Agricultural, and Environmental Sciences and the Ohio Agricultural Research and Development Center in cooperation with the National Agricultural Statistics Service of the United States Department of Agriculture. This bulletin contains 1999 Ohio county and state cash receipts estimates, and revised 1992-1998 state estimates. Also included are revised 1998 county and state cash receipts estimates to reflect the changes in county data from the preliminary estimates published in 1999. County production and inventory estimates of various commodities are published annually in the Ohio Agricultural Statistics bulletin.

Current cash receipts from farm marketings of farm products represent calendar year gross receipts from commercial market sales as well as loans (net of redemptions) made or guaranteed by CCC and purchases under price support programs. The value of home consumption and production expenses is excluded. County estimates of cash receipts from farm marketings are derived by allocating state estimates to counties on the basis of crop and livestock production and Census marketings by Agricultural Statistics Districts. Check data such as county dairy production from the milk market administrators are also used.

The definition of a farm includes a place which has annual sales of agricultural products of \$1,000 or more. This definition has been used since the 1974 Census of Agriculture. The average cash receipts per farm will aid in the comparison of counties with similar farm practices better than a comparison of total cash receipts.

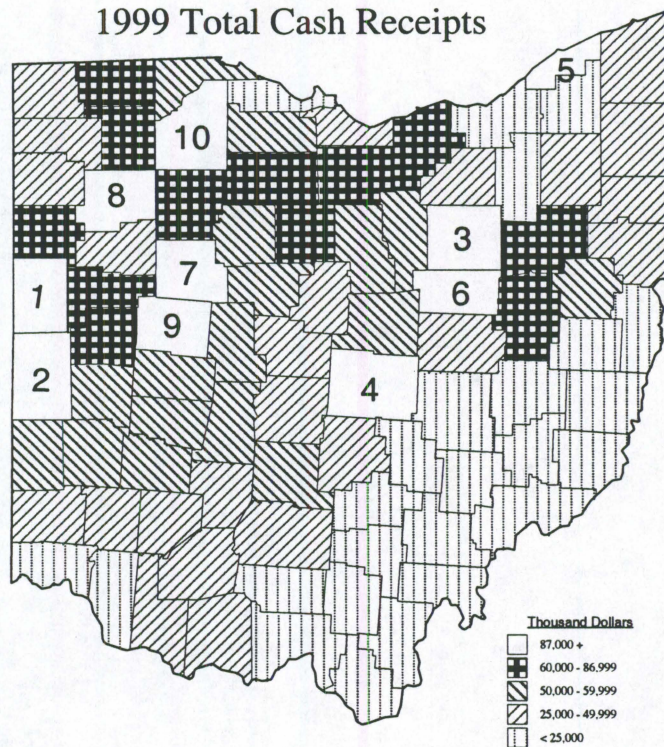

This bulletin has been prepared through the efforts of many people, including personnel of agricultural agencies throughout Ohio. The greatest recognition is due to the large number of Ohio farmers and agri-businessmen for their interest and help in providing the basic data used in compiling this information.
